ABC – Austrian Butterfly Conservation

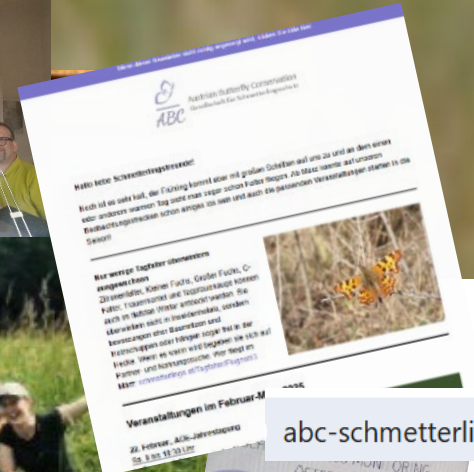

Austrian Butterfly Conservation is an NGO (since 2020) that creates a **Network between people and butterflies** through:

- **Taxonomic knowledge training:** excursions, identification material, webinars ...
- **Standardized long-time monitoring** through various projects and partners to increase knowledge for the protection of butterflies
- **Connecting with Butterfly Conservation in Europe** e.g. EMBRACE, EPIC und PollHab

Numbers are growing 2025
